The GreenSeminary Initiative

A program of Drew Theological School & GreenFaith

Seminary Environmental Certification Program
Certification Green Team Commitment Form

By signing my name to this form, I pledge that I will help do my part to lead my school through the *Green Seminary Initiative's - Seminary Environmental Certification Program.* I am aware that commitment to this process entails activities which could cover a span of up to three years (with exceptions for graduating students), which include:

- Participating in Certification Green Team meetings on a regular basis.
- Helping complete the Certification Program's Institutional Audits and Action Plan, covering steps in the five areas of theological education, worship/spiritual formation, facility management and grounds, community life, and institutional leadership and governance.
- Participating in Program webinars and virtual engagements with Green Seminary Initiative representatives and cohort members of other seminaries participating in this certification process.
- Promoting and generating enthusiasm for your school's greening efforts and participation in the Green Seminary Initiative, through articles, social media outreach, press releases, and other communications steps.
- Assisting with the submission of Progress Reports every six months during implementation of Action Plan.

You will receive periodic updates about the Certification Program at the email address you include below, as well as the Green Seminary Initiative general newsletter each month, and GreenFaith emails each week.
